MODEL 6817-HT/S

For "D" Series (except D-250) and 1973 18 HP Automatic

hardtop
suburban
cabs

MODEL 6814-HT/S

For "B" and "C" series and 1968-1976 long frame tractors

ORIGINAL CABS PROVIDE REAL COMFORT FOR SNOW BLOWING, DOZER BLADE WORK, GRASS MOWING — many jobs!

NEW, FIBERGLASS TOPS on certain cabs for the four wheeled riding tractors are more compatible in appearance with your fine WHEEL HORSE TRACTORS. These tops will not "bag down" from snow or rain weight — fit the top of doors better than the vinyl top — have a white "gel-coated" surface which will not rust — are extremely durable!

ORIGINAL CAB COVERS are made from heavy, high-tensile strength, double-laminate nylon/vinyl fabric which is WHEEL HORSE RED in color. Dacron® thread is used throughout for its exceptional resistance to damage from sun-rays and weather. Seams are LOCKSTITCHED and BACKSTITCHED for extra durability!

WINDOW MATERIAL is non-puckering, rigid type plastic which precludes front formation of both wet and dry snow-clogging. Forward inclination of the windshield minimizes snow-glare and contact with falling snow flakes.

HEAVY WEIGHT TUBING is used for frames specifically designed for each machine, thus providing freedom from bothersome cab wiggle and frame damage.

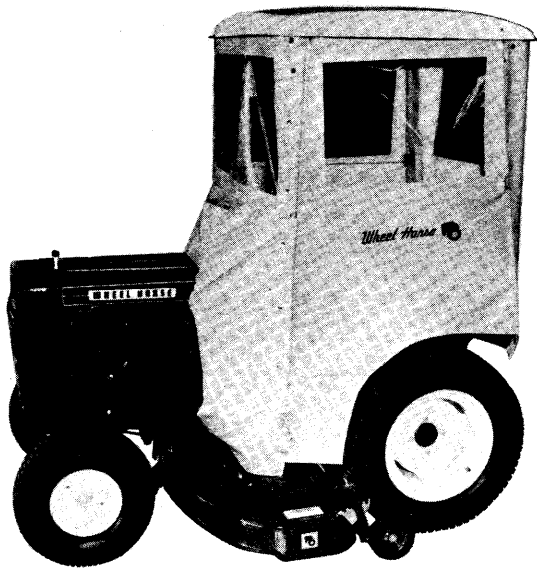

CAB INSTALLATION IS SIMPLIFIED with clear, understandable instruction sheets, further designed to assure correct installation with minimum effort and complexity. HEAD-ROOM is ample for tall persons. The operator is amply protected, yet left fully free to handle the machine under even exceptional operating conditions.

ORIGINAL TRACTOR CAB CO. WARRANTY:

"ORIGINAL will replace, free of charge, for a period of 30 days after retail sale is made, any parts found to be defective due to poor quality of workmanship or materials only as long as the cab has been installed as per installation instructions, and upon machines for which the cab is advertised by ORIGINAL as fitting."

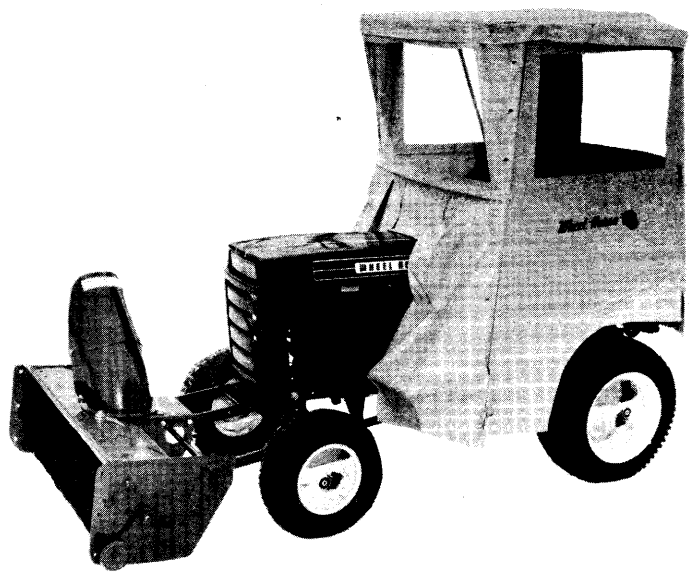

NOTICE:

Wheel Horse mounting consent does not in any way guarantee the products quality, performance or safety. Mounting consent means that the attachment can be mounted on the tractor listed without voiding the Wheel Horse warranty.

MODEL 6090 HT/L
